

StarSkate Program

STARSkate stands for Skill – Test – Achievement – Recognition...Skate Canada's learn to figure skate program.

The transition from learning to skate in Junior StarSkate, this program introduces skaters to Artistic skating, Dance, Free-skating, Synchro and Skating Skills through group and private lessons.

Skaters in STARSkate are able to progress through the program at their own pace, exploring many avenues of interest. STARskate provides the tools for skaters to develop self-confidence, motivation, time management skills and determination. This is where most skaters develop a passion for the sport that carries with them for a lifetime. When your child lands their first jump, executes 3 turns or learns the Dutch Waltz, it is a very exciting time for them. They are learning skills and developing confidence in themselves. Friendships are made, goals are achieved and celebrated as skaters learn about themselves and develop their self-image.

Intermediate Level: Skaters working at the Star 1-2 Level

Senior Level: Skaters working at the Star 3+ Level. A coach will notify you when your skater is ready to register at this level.

Parents' roles and responsibilities

May include the following....

- To ensure skaters get to the arena on time
- To be supportive, patient and encouraging
- To work as a team with the coaching staff and skater to achieve goals
- To stay informed on club development and activities
- To know the contact person for their skater's session
- To volunteer some time within the club's operation
